CAREER OBJECTIVE

Computer Science Engineering student and aspiring game developer seeking internship opportunities to apply problem-solving skills and gain practical software development experience. Interested in Data Structures and Algorithms, web development, game development, and building engaging technology solutions.

EDUCATION

B.Tech in Computer Science and Engineering | 2025–2029
BVRIT Hyderabad College of Engineering for Women **| CGPA: 9.4/10**

TECHNICAL SKILLS

Programming: C, Java, Python
Web Technologies: HTML, CSS, Bootstrap
Database: MySQL
Core Subjects: DSA, DBMS, COA, OOP
Tools: Git, GitHub, VS Code

PROJECTS

1. MetraAI — Smart Packaged Commodity Compliance Checker
Developed for SIH 2026, this project helps identify missing or potentially incorrect packaged-commodity declarations, including MRP, quantity, manufacturing date, and product composition. It is designed to support faster preliminary compliance checks.

2. COVID Vaccination Management System (C)
Created a C-based project concept for managing COVID-19 vaccination information. It can organize basic vaccination records and help users retrieve relevant details, demonstrating the use of structured programming and record management.

3. Personal Portfolio Website
Built a personal website to present academic background, technical skills, and projects in one place. The portfolio provides a simple way for recruiters to review profile information and explore project work.

DATA STRUCTURES & ALGORITHMS

Solved 200+ problems on LeetCode. Topics: Arrays, Strings, Linked Lists, Stacks, Queues, Trees, Graphs, Dynamic Programming, Hashing, and Recursion.

ACHIEVEMENTS & ACTIVITIES

- Cleared Round 1 of the Adobe University Hackathon 2026.
- Participated in coding contests.
- Completed a 5-day speed mentoring program provided by Atlassian.
- Attended an LLM workshop at VNRVJIET.
- Participated in Algohack.

SOFT SKILLS

Problem Solving, Teamwork, Communication, Time Management, Adaptability, and Quick Learning
