PROFESSIONAL SUMMARY

Motivated first-year Computer Science Engineering student with strong foundational knowledge in programming and problem-solving. Passionate about software development, data structures, and emerging technologies.

TECHNICAL SKILLS

- Programming: C, Python
- Web: HTML (Basics)
- Tools: VS Code, MS Office
- Core Concepts: Data Structures (Basics)

EDUCATION

B.Tech – Computer Science Engineering

College Name: BVRIT HYDERABAD College of Engineering for Women

Year: 1st Year | Graduation: 2029

CGPA: _____

PROJECTS

- Project Title – COVID Vaccination Registration System

Developed a C-based application to manage vaccine booking by collecting user details, assigning hospitals, and scheduling slots. Implemented using C programming with structures and file handling for data storage.

ACHIEVEMENTS & ACTIVITIES

- Participated in a college event Decoders
